

## **Tracy Gilmartin**

I live in Ammanford where our office is based, and I am coming up to 20 years working for One Voice Wales. I started as a part time administrator in November 2004 and worked my way up to Office Manager.

I have varied roles within the organisation including the day to day running of the office to financial management which includes the accounts, processing salaries, the majority of purchasing and I also I organise the main One Voice Wales conferences.

I have over 35 years' experience in administration including working for a Plastic Injection Moulding Company a PVC Window Company and a Monumental Masons. None of my previous jobs have been as interesting, varied, manic and at times stressful as working for One Voice Wales but I love it!!

My partner Antony and I have a little fur baby Bobs that we spoil rotten. He's a papillon and thinks he's a rottweiler. We're currently renovating a little freedom caravan ready for the three of us to explore Wales.
